21000 West Ten Mile Road  
Southfield, MI 48075-1058  
Phone (248) 204-4000  
Fax (248) 204-3727  
[www.ltu.edu](http://www.ltu.edu)

Campus Hotline: (248) 204-2222

Please submit updates and corrections to [ltudirectory@ltu.edu](mailto:ltudirectory@ltu.edu).

## **PHONE COMMUNICATION SYSTEM**

All campus extensions can be reached from off-campus locations by dialing the 248 area code, followed by 204 and the four digit extension number. For directory listing, those calling from outside Lawrence Technological University may dial (248) 204-4000, and then either enter the four digit extension number, or wait for the instruction menu. Telecommunications Device for the Deaf (TDD) users may call (248) 204-4117. Toll-free number is available to US and Canada callers: 1-800-CALL-LTU (1-800-225-5588).

## **TRANSFERRING CALLS**

Outside calls can be transferred to any other extension on the University telephone system. This applies whether the caller has dialed directly or was connected through the switchboard. To transfer a call, press the transfer key, dial the extension, announce the call, if appropriate, press the transfer key again and hang up. On non-key units, press and release the cradle/hook button, dial the extension, announce the call, and hang up. On Link/Tap key units, press the Link/Tap key, dial the extension and hang up.

## **INTRAUNIVERSITY CALLS**

For information on numbers not listed, dial 0. To reach the Operator, dial 0. If you receive no answer when dialing an individual's office, leave a voice message, dial 0, or hang up and dial the extension of the department concerned.

## **OUTSIDE LOCAL CALLS**

Dial 9, and then dial the desired number. (Note: There is no noticeable pause in the dial tone when 9 is pressed.) For outside information, consult your city directory. In case of emergency, dial \*911 (Star Key-9-1-1).

## **LONG DISTANCE CALLS**

All long distance calls must be official business. Each department is responsible for its calls. To make a long distance call, use your assigned access code, as follows: dial 16 + (access code) + 9 + 1 + area code + phone number. For 800 (toll-free) numbers, dial 9-1-800-phone number. For your convenience, certain numbers in the metropolitan area codes, such as 313 and 586, do not require the use of the access code. To request changes in your telephone system or number assignment, contact the Edward Donley Computer Center, ext. 3700.

## **VOICEMAIL**

A computerized voicemail service is available to university employees and offices. All users are assigned a mail box as part of their extension number, with corresponding passcode. To retrieve messages from any phone, anywhere, users dial their extension number, and press \* (the Star Key) when their greeting message begins. After the passcode is entered, messages may be played by pressing P, (the 7 key). A menu of options is available to users by pressing U, (the 8 key). Users are encouraged to be very brief in their greeting messages. Simple identification with a request to leave a detailed message with a phone number should suffice.

## **IDENTIFICATION CARDS**

All staff and faculty are issued photo ID cards at the time of employment. In addition to identification, the LTU card is used for authorized access to campus buildings after hours. Campus Facilities staff members are required to wear ID cards while on duty.

If a person you do not recognize enters your work area claiming to be from "housekeeping" or somewhere else and is not wearing an ID card, please note any distinguishing features and report this to Central Safety (ext. 3945) as soon as possible without alarming the intruder.

## **INTERNET**

The internet address for campus users is user@ltu.edu. E-mail may be sent on the internet simply by addressing it to user@remotenode.domain.

University internet service is reserved for authorized education and research applications. As a consequence, LTU software filters may not accept certain requests to access, transfer or serve proprietary graphic and other excessively large files containing multimedia materials.

## **WEB ADDRESSES**

LTU internet website can be accessed at <http://www.ltu.edu>. LTU web services, such as Banner and Blackboard, are available at <http://my.ltu.edu>, and alumni services can be reached at [www.lawrencetech.net](http://www.lawrencetech.net).

## **NOTICE REGARDING ELECTRONIC COMMUNICATIONS<sup>1</sup>**

University telecommunications and electronic communications equipment, including telephones, computers, E-mail and voice mail lines and transmissions are for official use only. The university respects the propriety and integrity of individual communications; however, users are cautioned that voice and electronic messages either sent or received through the system are not private communications.

The university has the ability to monitor voice mail, e-mail and other TCP/IP (network) traffic despite the assignment of passwords, access codes or message delete options. The university may exercise the right to monitor telephone conversations, e-mail communications and messages, voice mail communications and messages and network traffic, without notice, for legitimate administrative purposes whenever the university believes that such monitoring is necessary, in accordance with state and federal law. Legitimate administrative purposes include, but are not limited to, diagnosis and maintenance of the system, training, student service, prevention of personal or frivolous use, detection of suspected work-related misconduct, such as fraud, theft or unauthorized copying and compliance with university policies.

To assure security, do not send sensitive or confidential messages or materials by electronic means, including messages that contain disparaging, abusive or potentially damaging or embarrassing remarks. Typographical errors and other mistakes sometimes result in electronic messages arriving at the wrong destination. Some courts have ruled that electronic messages can be obtained in litigation (e.g., through discovery or a subpoena) and have likened them to office memos that are left in the top of a photocopy machine, for all to see.

Use of any portion of the university's electronic communication system acts as a waiver of any right to privacy a user may assert and as express consent by such user to such legitimate monitoring practices that the university, in its sole discretion, may employ.
