

Pre-Professional Programs

PRE-LAW | PRE-MEDICAL | PRE-DENTAL

Pursue a Professional Career

The ability to handle difficult problems and complex situations is important in any profession, but in the fields of law, medicine, and dentistry, it is crucial. If you are interested in pursuing one of these demanding yet rewarding careers, Lawrence Technological University can offer a solid foundation to aid your preparation for professional school.

Why Lawrence Tech's Pre-Professional Programs?

Designed to help you in your quest to meet challenging admissions requirements, Lawrence Tech's pre-professional programs in law, medicine, and dentistry allow you to gain in-depth knowledge in your chosen area of study, as well as a strong general education. The University's core curriculum provides rigorous training in science, technology, and the liberal arts. You will also learn critical thinking and communication skills, as well as the ability to work both independently and as part of a team.

Students from Lawrence Tech's pre-professional programs have gone on to become successful attorneys, judges, physicians,

pharmacists, dentists, and professionals in a number of related fields. Whichever path you choose, the Lawrence Tech experience can give you the foundation for the well-informed and sophisticated thinking you need to succeed in an increasingly scientific and multicultural environment.

Pre-Law

Just like the field itself, Lawrence Tech's pre-law program is designed to challenge you from day one. Beginning your freshman year, you will be exposed to the tools needed to develop your ability to think critically and express yourself clearly and convincingly – skills that can help you succeed both in the classroom and in the courtroom. Lawrence Tech's pre-law program

“Lawrence Tech has had a tremendous impact on my career. After graduation I attended medical school at the University of Michigan. I found myself very well prepared, not just for medical school, but for my entire professional future.”

Thomas Palmer, MD, BSCh'74, Henry Ford Hospital

“The courses and professors at Lawrence Tech provided me with a solid background in the writing and analytical skills needed to succeed in law school. In particular, the core curriculum of literature, communications, and philosophy courses created a strong foundation for the assignments I encountered in law school.”

Karen Liska Evans, JD, BSHu'03; attended Wayne State University Law School

places emphasis on mathematics, natural science, and the humanities. Students who major in mathematics, humanities, English, engineering, or the physical sciences traditionally do well on law school admission exams, and distinguish themselves in their professional careers. In addition to a superior education, you'll gain a competitive edge by incorporating the latest advanced technologies into your studies – an excellent way to prepare you for fields such as corporate law or intellectual property (including patent law, trade secret law, etc.).

Pre-Dental, Pre-Medical

With an emphasis on scientific and technological expertise, as well as deep learning and critical thinking, Lawrence Tech's pre-dental and pre-medical programs can prepare you for a bright future in medicine. Whether you plan to enter medical, dental, or veterinary school,

Lawrence Tech's challenging core curriculum, anchored in science, mathematics, and technology, can help develop your ability to think critically and express yourself clearly and convincingly. Students who major in the natural or life sciences, mathematics, or engineering often excel on professional school entrance exams, as well as throughout their careers. Lawrence Tech's degree programs in biology, chemistry, physics, and psychology can help you satisfy most medical school admissions requirements without added elective courses.

Getting Started

For more information, contact Lawrence Tech's Office of Admissions at 800.CALL.LTU or admissions@ltu.edu. For specific questions about the pre-professional programs, visit ltu.edu/arts_sciences/pre_med.

GET MORE. DO MORE.
