

**COLLEGE OF ARCHITECTURE AND DESIGN
COURSE ELECTIVES**

Students are always wondering which courses count toward CoAD electives. This is the easiest way to understand which courses can be used to satisfy the degree program. Any course that starts with ARC (architecture), ARI (interiors), ART (fine arts) and ARM (facility management) will satisfy the **Architecture** elective requirement (4 courses x 3 credits = 12 credits). Students in all majors may take any of the courses listed below as electives. However, depending on your major, some of these classes may be part of the core requirements. If it's not a requirement, then it will be considered as an elective. As long as you meet the **pre-requisites**, feel free to register for any of these classes:

ARCHITECTURE:**SEMESTER OFFERED:**

ARC 3823 – Electronic Methods 2	all semesters
ARC 4833 – Cad 3	all semesters
ARC 2223 – Introduction to Architecture Modeling	fall
ARC 3123 – Furniture Design	spring
ARC 4113 – Great Books of Architecture	spring
ARC 4133 – Passive Solar Design	spring
