Possible is everything.
Lawrence Technological University was founded in 1932 in the middle of an innovation explosion that would change the world. With the help of Henry and Edsel Ford, who provided space next to their Model T plant, LTU realized the dream of preparing leaders for the new technical era.

Today, LTU is still changing the world.

Students and alumni have gone on to design and engineer the tools, buildings, and products that helped define their generations.

And tomorrow’s students will do the same.

If you’re a thinker, a builder... if you’re curious... then you are Lawrence Tech. It’s where everything is possible and possible is everything.
Relevant technology-infused academic programs.

Applied research.

Close industry partnerships.

LTU can transform your passion for technology and design into a unique ability to deliver inspired innovation.

Lawrence Tech is about Theory and Practice – taking abstract ideas into the real world to solve tomorrow's problems.

Study with faculty who care.

100+ Academic Programs

Dive into your major from day one. You don't have to wait to study what you love.

Network with professionals

11:1 Student/faculty ratio

Never get lost in huge lectures.
Use the latest technologies in state-of-the-art labs, guided by professors with industry expertise.

get lost in huge lectures.

in your field.
As a transportation design student Jeffery Summers, BSTD’16, received a trip to the Monaco Yacht Show on the French Riviera, where he took first place in an international yacht design competition. His prize: a three-month internship in the Netherlands, where he worked with Sea Level Yacht Design and Engineering and Dutch shipyard Heesen Yachts on a new yacht concept based on his design. He now is a creative designer at Scout Boats in South Carolina.

LTU’s team of civil and architectural engineering students won four first awards at the Great Northern Concrete Toboggan Race near Ottawa, Canada: King of the Hill, Best Performing Toboggan, Best Steering Performance, and Fastest Run Time. The team’s toboggan, built with concrete runners, clocked at 38 mph.
Rachel Sweet, BSMC’17, dreamed of working on a live television show and her LTU media communication education got her there. She is now an associate producer at WDIV Local 4/ClickOnDetroit. In her senior year, she interned fall and spring terms with WDIV and graduated with a job in hand.

A team of LTU computer science and mechanical and robotics engineering students won the Lescoe Cup Grand Award in the Intelligent Ground Vehicle Competition sponsored by the Association for Unmanned Vehicle Systems International Great Lakes and the U.S. Army’s Tank Automotive Research Development and Engineering Center.
Driven?
Curious?
Wish to pursue learning experiences beyond the classroom?

LTU’s dynamic culture of innovation, leadership, and entrepreneurship can help you achieve your goals.

$1,000,000
Howard Hughes Medical Institute Grant awarded to LTU’s College of Arts and Sciences, May 2017, to boost undergraduate education and research

STUDY ABROAD
Enhance your education with international experience. Study, travel, or volunteer abroad. Take tours with your professors and participate in alternative spring breaks.

www.ltu.edu/abroad

QUEST
Test drive a career or explore your passion in music, medicine, art, science, or literature in this experiential learning initiative. You’ll graduate with a Quest transcript in addition to your GPA transcript.

www.ltu.edu/quest
COMMUNITY SERVICE
Participate in service-learning activities and get involved in the community.

HONORS PROGRAM
Meet challenges at the highest level to prepare for your career or post-graduate education.
www.ltu.edu/honors

LEADERSHIP PROGRAM
Designed to develop your leadership and entrepreneurial skills, Lawrence Tech’s Leadership Program is integrated into every bachelor’s degree. You’ll graduate with a workforce advantage.
www.ltu.edu/leadership
College is also about meeting people, having fun, and getting involved in campus activities. Starting with Orientation & Registration and Discovery Days, you'll have lots of opportunities to make friends at LTU.

When you live on campus, you're always home. Your classes, the cafeteria, field house, library, and athletic field are minutes away, and your friends are often a walk down the hall. At LTU, you're part of a community designed to ease your transition to college life.

Convenient and affordable, University housing offers:
- Community living and one- and two-bedroom apartment-style suites
- All-you-care-to-eat meal plans

Football returns in 2018
Finding employment on campus, a co-op, an internship, or your first job is about being ready when opportunity knocks. LTU’s Office of Career Services can prepare you to compete with the best, helping you polish your resume, conduct a job search, and talk to interviewers. As an alum, you can access their services anytime.

**INTERNSHIPS AND CO-OPS**

Professional experience, mentoring, getting a foot in the door – one of the best ways to get a job is to intern and/or co-op. Career Services can help you make the connections.

Jonathan DeBoer, BFA’11, a graphic designer and photographer, saw his work featured in the Detroit Institute of Arts exhibition “Detroit After Dark.” His mostly black-and-white photos capture a “film noir, Gotham City-inspired look.”

Eight LTU alumni at architectural firm ROSSETTI worked on the $100 million renovation of the Detroit Lions’ Ford Field. Pictured here are Brendon Veldboom, BSAr’16; Andreea Vasile-Hoxha, BSAr’17; Samantha Smigelski, BSAr’10; Adam Hoane, BSAr’10; and John Bigtacion, BSAr’11.

Panasonic hired Katherine Wilbert, BSAET’14, and Alex Porchia, BSAET’15, after their internships during which they worked with Abbey Road audio engineers to produce a premium sound system for the British Motor Corp.
