April 6, 2020

Greetings and warm wishes!

It is amazing to think we are in 2020. Our academic year flies by so quickly especially when I see all of you great students progressing through to more and more accomplishments each year. I hope you continue to be engaged and involved in and around campus. You only enrich your life when you continue to build relationships that can effectively change your life.

To help you plan for the rest of your future, I want to inform you that the Lawrence Technological University Board of Trustees has agreed to a 3% increase for the fall 2020 semester. We continue to be one of the lowest private universities among the Association of Independent Technological University’s. This is a premier prestigious group of technological universities that prepare young men and women like yourself for the careers of the future.

Recognizing the needs of you and your families, LTU’s annual scholarship and financial aid support has been growing at a higher rate than recent tuition increases, and today’s stands in excess of $18 million. Our Office of Financial Aid and Student Accounting are ready to support you in developing payment plans, identifying opportunities for scholarships, completing the FAFSA and developing a plan to end your debt sooner than later.

We continue to have a collaboration with Education Planning Resources (EPR). EPR is a non-profit company that provides an affordable college plan to identify opportunities to support your college education and create a plan to pay off your student loans sooner. Whether you are just completing your freshman year or you are approaching the last stretch of your undergraduate journey, contact EPR; they can help ease your stress, maximize your dollars and help you with a plan for the future. Here is the link to their website, https://educationplanningresources.com/

Remember, we have donor based funds that are given to us by family, friends, and alumni of the University on a yearly basis. These dollars are given solely to our student population to offset the cost of their tuition. I have provided a link to the Office of Financial Aid; https://www.ltu.edu/financial_aid/ click to see how you can apply for the private donor scholarships.
Lawrence Technological University continues to be committed to enhancing the value of your education so that your return on investment remains first in the state of Michigan and in the top 3% in the country. We will always stand by you and support your needs until you reach your ultimate goal of achieving that coveted Lawrence Technological degree.

The Lawrence brothers believed all students deserve a degree and finances should never get in the way. After 88 years, we are still committed to that belief and we will continue to remain steadfast in supporting our students. We wish you the best as you finish the spring of 2020 online and we look forward to your next academic year where you will, once again, create history.

Sincerely,

Lisa R. Kujawa
Associate Provost for Enrollment and Outreach
