Emphasizing a solid liberal arts education while fostering creativity, Lawrence Technological University’s Bachelor of Science in Humanities focuses on developing your ability to think critically, solve problems creatively, and make imaginative and rational decisions – all important skills needed to compete in your chosen profession as well as prosper in the global economy of the 21st century.

Designed with intellectual exploration in mind, the BS in Humanities stresses broad knowledge and effective communication skills while providing a solid foundation in philosophy, literature, history, communication, psychology, and economics. This comprehensive and well-rounded education can lead to a myriad of career paths, including advertising, business, communications, government service, public relations, publishing, and teaching. Designed to deepen your intellectual development, Lawrence Tech’s humanities program also provides excellent preparation for those who want to pursue advanced degrees in areas such as anthropology, business administration, history, journalism, law, linguistics, and literature.

Throughout the ages, human-kind has tried to unravel the mystery of the human condition. We’ve attempted to find the answers to the meaning of life through various disciplines – philosophy, literature, history, religion, the arts – or what we refer to today as the humanities. Those who study humanities approach life’s unanswered questions through knowledge, and employ analytical, critical, and speculative methods to seek the truth.

**Why Lawrence Tech’s BS in Humanities?**
Classes at Lawrence Tech are taught by faculty who are experts in their field, and caring advisors can help you organize your education to achieve your specific professional goals. Small class sizes encourage interaction with faculty and other students, and the curriculum emphasizes wide-ranging explorations of art, economics, drama, film, history, literature, music, and philosophy – and their importance to a society that is becoming more technological. The humanities program features a large number of open electives, allowing you to explore your interests and develop your creative intellect in the area of your choosing. This feature is especially beneficial for those who wish to

**CURRICULUM**

Your 121-credit-hour program consists of:

- Humanities (with emphasis on leadership) 56
- Thesis Sequence 15
- Computer Science 3
- Mathematics 7
- Science 7
- Electives 33
- **Total Credit Hours** 121
pursue double majors, and provides a strong foundation for pre-law or pre-medical students, as well as for those interested in obtaining an MBA or devoting themselves to public service.

Like all Lawrence Tech programs, the BS in Humanities embraces the University’s motto of theory and practice, offering real-world experience in addition to exceptional classroom exposure. Throughout your studies, you will design a series of no less than four related courses that can give you the tools needed to write a senior thesis or carry out a senior project. You may, for example, take course work in oral storytelling, creative writing, and playwriting, and produce a play. Or, you could take classes in art, aesthetics, and neuropsychology, culminating in a senior thesis on the neuropsychology of art. With Lawrence Tech’s program, the opportunities are limited only by your imagination.

The BS in Humanities further encourages you to apply what you’ve learned in the classroom to the real world and offers opportunities for internships, as well as individual or small-group research projects under direct supervision of a faculty member. Lawrence Tech’s Leadership Program, integrated into all undergraduate curricula, can also prepare you with the savvy and sophistication necessary for leadership in whatever field you choose.

Honors Program

Lawrence Tech offers an Honors Program for those interested in being challenged at the highest level, while preparing you for a professional career or post-graduate education. Built around rigorous course work in the liberal arts, the program also includes special summer internships, assistance in researching and applying to programs for advanced study, and opportunities to develop your leadership skills.
