Troubleshooting and Frequently Asked Questions
Q) What is my Alternative PIN?
   A) An Alternate PIN (Alt PIN) is your authorization to register for a given semester. It is a number that is assigned by your academic advisor, which allows you to register for classes on BannerWeb. If you do not know your Alt PIN, you will need to contact your advisor.

Q) When I Look-up Classes to Add some of the sections do not have a check box in the Select column, what does that mean?
   A) If there is not a check box there could be many different reasons. SR” stands for Student Restriction, which most often means there is a hold on your student account. To check for holds, navigate to Student Records, then select View Holds. “C” means closed section

Q) When I try to register for a course I get a “Prereq, test score –error”
   A) This error is most commonly caused by a course prerequisite not having been met. Please review the prerequisites listed in the course descriptions. If you believe you have already met the prerequisites for the course, please contact your advisor.

Q) An authorized faculty member entered a closed section override into the Banner system but when I try to register for the course it still has a C in the select column
   A) Try entering the specific CRN of the course into the CRN boxes on the Add/Drop course page and press submit. If you still receive an error check with the One Stop to verify that an electronic override was entered.
