Why join a sorority??

A sorority is a great opportunity to meet and become close with girls at small school like LTU. Sororities are for life and the bonds you create with your sisters are everlasting. Although we all share a common goal, each of the three sororities on campus are different in their own way. Rush is a great opportunity to meet and become acquainted with the different greek organizations, not just sororities but fraternities as well. Sororities are great techniques for networking with older students and alumni in your related field. Things as simple as sharing books or opinions on classes are beneficial and offer a unique academic support system.
