RESIDENT RIGHTS AND EXPECTATIONS

ROOMMATE BILL OF RIGHTS

Residents and their roommate(s) have the right to:

- Remedy and file grievances
- Be free from fear, intimidation, and physical or emotional harm
- Read, study, and sleep in one's room without unreasonable disturbance
- Seek mediation assistance from University Housing staff during disputes
- Free access to a clean and safe living environment that offers independence and privacy which does not negatively impact residential life

ROOMMATE EXPECTATIONS

A roommate can be a tutor, advisor, and friend with whom residents will share experiences full of fun, anxiety, and everything in between. University Housing hopes that the relationships that residents build with roommate(s) will outlive the years spent studying at Lawrence Tech.

Living with a roommate can be a unique situation. Most issues that arise can be resolved by keeping an open avenue of communication with roommate(s). It is important to remember that roommate(s) may have feelings or opinions different than other roommates. It will take effort to resolve issues and come to compromises and common understandings. University Housing urges residents to develop these lifelong skills. However, it is strongly advised residents contact their Resident Assistant, Residence Hall Coordinator, or the Director of Residence Life if roommates are unable to work through a conflict. If a roommate mediation cannot assist with roommate issues/concerns University Housing will decide if a roommate and/or all roommates will need to relocate to another room.

Residents can also contact their Resident Assistant or Residence Hall Coordinator to complete a Roommate Agreement Form, discussed and agreed upon by all roommates. All first year students will be required to complete the Roommate Agreement Form during the first month of the semester.

COMMUNITY MEMBER EXPECTATIONS

As a resident of University Housing at Lawrence Technological University, students play an active role in helping to create a safe and inclusive community for all residents. All residents are expected to contribute positively to the community and adhere to the following expectations:

- Residents are expected to consider the rights of other residents at all times. A resident's actions in the community should not interfere with another's rights listed in the sections above. In addition, resident actions should not interfere with the university's ability to create and maintain an educational environment within the residence halls.
- All residents share equal responsibility for adhering to, enforcing and knowing community expectations. Each resident is involved in the development of the floor community, expected to refrain from anything that disrupts the community, and assist in maintaining community standards and reporting disruptions to the community.
- Residents are expected to keep common areas within the building clean. Residents will be held accountable and fined for common area billing if the floor/pod or building is not kept up to standard.

APPLICATION DETAILS

ELIGIBILITY

Applicants must be admitted to Lawrence Tech in order to live in University Housing. For the fall and spring semesters, undergraduate residents must maintain full time status (12 credits undergraduates). Exceptions may be made for seniors in their final year who have less than nine total credit hours to complete their degree or for students who are participating in a co-op experience. Graduate residents must maintain one course (three to four credit hours) per semester. All students must be enrolled in classes full time by the add/drop date of each semester. Failure to do so will result in termination of the housing contract.

Students staying in University Housing for the summer must be enrolled in at least one course. A separate application must be submitted.

VACCINATIONS

Beginning Fall 2019, any student new to University Housing must provide vaccination records. A list of required and recommended vaccinations can be found on the housing website. Although it is not required that students returning to University Housing provide vaccination records, they may still do so if they desire. University Housing does recommend that students living in a community setting do get vaccinated to prevent and protect themselves against any outbreaks.

GENDER INCLUSION

The Office of University Housing is committed to creating welcoming and inclusive spaces in the residence halls for all students, including those whose gender identity and/or expression differs from the sex assigned to them at birth. At LTU, we offer housing options to all students who may choose to live with roommates of any gender or sex, or who may prefer a room assignment and roommate that is not based upon gender. University Housing is dedicated to working individually with students seeking supportive living arrangements. If you are seeking such an arrangement, please contact the Office of University Housing at housing@ltu.edu.

ROOM CHANGES

Residents who would like to change rooms may submit a Room Change Request Form. A resident may change their room during the academic year if they have been granted permission by the Office of University Housing. They must move within 48 hours of notification. The resident may not switch keys with others or move into a space that is not assigned to them. Residents will be assessed an improper move-out charge of \$50 and may face disciplinary action if they leave a room without checking out.

The Office of University Housing is required to maintain accurate records about who is living in each room. It is imperative that residents wishing to change rooms receive written permission from the Office of University Housing before changing rooms.

Residents who change rooms without written permission will face disciplinary action. No student may live in a room other than his/her assigned room.

Should a resident switch into a different room, they will be charged or refunded accordingly if the style of the new room is not the same as the previous room.

The Office of University Housing reserves the right to deny any room change request.

HOUSING FREEZE

To ensure that each student is accounted for, the Office of University Housing prohibits any student from moving to a new room during the first two weeks of each semester and during the last month of each semester. If an emergency arises and a student needs to be moved the Office of University Housing may make an exception.

VACANCIES AND CONSOLIDATION

The Office of University Housing reserves the right to fill any vacancy at any time. The Office of University Housing may also choose to consolidate students who have vacancies in their rooms into one room. If two or more residents are being consolidated, the Office of University Housing will

make the final determination of which room will be vacated. Rooms with vacancies at the end of the Fall Semester will be subject to consolidation. Residents who fail to comply with consolidation requests are subject to disciplinary action and/or a fine.

ROOM ASSIGNMENTS

The Office of University Housing reserves the right to make adjustments to room assignments as necessary. The Office of University Housing may reassign students if circumstances arise.

Special housing request forms are available on the University Housing website for residents to submit. Forms available include:

- Coed Room Agreement Form
- Over Occupancy Form
- Alcohol and Roommate Agreement Form (required for rooms with residents both over and under the age of 21)
- Roommate Survey (if you are looking for a roommate)

BREAK HOUSING

If a resident intends to stay in University Housing during the Winter Break, they must apply in *advance for by completing the Winter Break Application found on the University Housing website. University Housing reserves the right to approve or deny this request. If approved, there is an additional charge to stay during this period.

University Housing remains open during the Thanksgiving and Spring Break periods. Break Housing requests are not necessary for these breaks.

Dining Services will not be open during any break periods, unless otherwise notified.

Guests over break periods must be signed in per the guest policy. Residents of the building who are not approved to stay over the break period are considered guests and must be signed in.

SUBCONTRACTING

Residents are not allowed to permit another person to live in their room. The resident will be considered in violation of this policy, regardless of whether or not the resident also occupied the room with the

individual. Residents may not subcontract their room in order to be released from the contract.

TERMINATION

The Office of University Housing may terminate the Housing and Meal Plan contracts for breach of any provision in the contract. Residents shall be released from the agreement if they are graduating or withdrawing from the University. Should students desire to terminate the contract prior to the end of the academic year, they must submit a Contract Cancellation Form to the Office of University Housing. Requests for release due to extenuating circumstances may be granted at the sole discretion of the Director of Residence Life but are not guaranteed.

The University reserves the right to remove any resident who violates any provisions of the University Housing policies and procedures outlined or who fail to vacate his/her room after notice or upon expiration of the contract. The University is under no obligation to renew the Housing and Meal Plan application upon its expiration.

* If one would like more information about the housing application process, meal plans, etc., please refer to our website at tu.edu/housing.

The Student ID provides access to the residence hall they live in and their meal plan and serves as a library and help desk reference card. It is against the Student Code of Conduct to use someone else's student ID. If a University Student ID is lost or damaged, contact the One Stop Center to have a replacement card provided. There may be a fee. Stop by the Information Desk to have the Student ID card reactivated for entrance to the residence hall. The University is not responsible for Blue Devil Dollars lost from a stolen ID card.

ROOM INSPECTIONS

University Housing staff will enter a room when:

- There is reasonable cause to believe there is or has been a Student Code of Conduct violation
- A staff member knocks and is invited into the room
- A violation occurs in plain view
- Conducting Room Inspections
- Appropriate University officials determine it is necessary

The Office of University Housing will conduct at least one Room Inspection per semester. Residents will be informed of a time frame in which inspections will occur.

University Housing staff members will look for prohibited items as well as health and safety concerns. Any room where all residents are under the age of 21 will have their refrigerator inspected.

A failed inspection may result in disciplinary action or fines for the roommate(s) responsible.

Items that are illegal or prohibited will be confiscated and the resident(s) will be subject to disciplinary action up to termination from housing or removal from the University, and depending upon the violation a referral to an appropriate government authority.

If there is reasonable cause to protect the welfare of students or extraordinary situations, emergency repairs or changes may occur.

A minimum of two staff members of University Housing will conduct the search. These staff members will knock on the door and announce the purpose of entering. Unless specifically ordered by University officials, the resident(s) are not required to be present.

All areas and spaces of the room, as well as all contents wherein, are subject to search. Designated University Officials or police officers may commence a search within the appropriate legal procedures for search and seizure.

REPORTING INCIDENTS

When any member of the University staff observes behavior that does not appear to be in compliance with the Student Code of Conduct, a staff member is required to document the behavior by filing a University Incident Report. Staff members will inform the individual(s) involved. Proper identification must be given to the staff member.

If a resident witnesses or would like to report an incident, they should contact the RA on Duty or Campus Safety.

HEALTH INSURANCE

It is strongly recommended that residents obtain health insurance to live in the residence halls. Students should have all vaccinations up to date.

PERSONAL PROPERTY INSURANCE

The University is not responsible for the loss of, damage to, or destruction of personal property. All personal property, and any property belonging to a third party that is in the resident's custody, is the sole responsibility of the resident.

The University advises all residents to obtain personal property insurance (renter's insurance). The resident needs to check with their insurance provider to determine applicable coverage. Please visit ltu.edu/housing/move-in-special-offers.asp if a resident wishes to seek additional coverage through National Student Services, Inc.

RESIDENT AND ROOM POLICIES

ABANDONED PROPERTY

Personal belongings left after the owner has vacated will immediately be declared abandoned. Abandoned items are the property of University Housing and will be disposed of in the appropriate manner. Residents will be charged a minimum of \$30 for the removal of abandoned items.

Items that are prohibited or detrimental to the residential community may be confiscated by University Housing staff or Campus Safety. It will be up to the discretion of University Housing to determine if the items are returned to the original owner.

Residents will be charged a minimum of \$30 for the removal of confiscated items. Furthermore, students may be subject to disciplinary action for confiscated items.

ACCESSIBILITY and ACCOMMODATION

Each residence hall has rooms designated to accommodate student needs. Any resident in need of assistance in emergency situations should contact the Office of Disability Services for assistance. Residents in need of an accommodation must contact the Office of Disability Services.

ADVERTISEMENTS

All flyers must follow the guidelines outlined within the Student Code of Conduct. Flyers must be approved by the building supervisor. Please bring flyers to the Information Desk at least three (3) business days before posting date. Only University Housing Staff are permitted to post fliers in housing.

Inappropriate, outdated, damaged, or unapproved posters will be removed. If posters are removed, University Housing is not responsible for any financial or emotional damage. Materials are not to be placed under room doors. Drawing on the walls, floors and ceilings of the residence halls is prohibited.

University Housing accepts no responsibility for timelines nor does the approval to post indicate support for the events advertised.

ALCOHOL

Students, not the University or its staff, are accountable for the outcome of all issues related to the legal, illegal, or irresponsible use of alcohol. Further information can be found in the Student Code of Conduct.

In the State of Michigan, the legal age for drinking alcohol is 21. Consumption, possession or purchase of alcoholic beverages by those without proof of legal drinking age is a violation of University policy and state law. Furthermore, buying alcohol for a minor is subject to a violation of the Student Code of Conduct.

Campus Safety Officers, University Housing staff, and other University Officials reserve the right to require disposal of any alcoholic or unknown beverages, whether open or not, from any individual found in violation of the alcohol policy; and to refuse access to the residence halls if a person appears as a threat to the residence community.

Residents and guests of legal drinking age may not possess or consume alcoholic beverages with individuals under 21 present. No individual may give, or provide alcoholic beverages to anyone under the legal drinking age. Alcohol is not permitted in East Hall. Additionally, anyone under the legal drinking age may not possess empty alcoholic containers/paraphernalia.

Residents who are of legal drinking age may consume alcohol in their room or another resident's room who is 21 or older; the door must be closed and underage persons cannot be present. Residents of legal drinking age residing in a room where residents are below legal drinking age must store any alcohol, a) in their bedroom if they are in apartment style living, or b) in no shared space (i.e., refrigerator) in a community style building. All residents in a room where residents are either all of age or in a mixed age room are required to post their signed Alcohol and Roommate Policy contract

on the back of their entry door. Consumption of alcohol is not permitted in common areas or other public areas surrounding the residence hall. Of age residents are expected to consume alcohol in a responsible and safe manner. Alcohol may not be provided to a visibly intoxicated person.

All alcohol-related paraphernalia and activities that promote the excessive consumption of alcohol are prohibited. These items include without limitation: kegs, alcohol ice luge sculptures or molds, beer bong, and drinking funnels. No person shall possess or use a common source of alcohol or participate in an event where a common source is present. Drinking games, even if consuming water, are prohibited in housing unless it is an approved event. A table portraying the game of beer pong that has not been approved will immediately be removed from the room.

Items may be confiscated by University Housing staff or Campus Safety. It will be up to the discretion of University Housing to determine if the items are returned to the original owner.

Public intoxication, disorderly conduct or vandalism resulting from the consumption of alcohol will be assumed to be intentional and will result in disciplinary action, even if consumption occurred at a location other than the residence halls

Those present in a room where the alcohol policy has been violated (even if not personally violating University policy or state laws) will be subject to disciplinary action up to termination from housing or removal from the University, as well as referral to an appropriate government authority.

BALCONIES, WINDOWS and RAILINGS

All South Hall balconies are locked and entrance is not permitted. Unlocking, opening, or entering a balcony will result in disciplinary action up to termination from housing or removal from the University and will be assessed a minimum fee of \$100 per person. No person may travel through a balcony or window. No person may scale balconies.

No individual may remove or damage window screens, throw anything from windows, lean out of a window or balcony, hang an item from a window or balcony, adhere, inscribe, or otherwise deface a

window or balcony, or place any alcohol or drug related paraphernalia on a window or balcony. Any of the above actions may result in disciplinary action and/or a fine.

No individual may intentionally lean off or climb over building railings, including East and Reuss common areas and building stairwells. No items may be thrown over railings or to upper floors or hung over sides of railings.

No individual may remove or tamper with South Hall window stoppers. Damage or removal may result in disciplinary action and/or a fine.

BREAK HOUSING

University Housing closes for the semester break and reopens the day before spring courses begin. Students needing to stay must apply and agree to pay the proper fee. University Housing is open during the Labor Day, Thanksgiving, and Spring break times. Dining services is not available during break times, unless otherwise notified.

Guests over break periods must be signed in per the guest policy. Residents of the building who are not approved to stay over the break period are considered guests and must be signed in.

CONSTRUCTION

Conditions beyond the University's control sometimes make it necessary to undertake maintenance and construction during times of occupancy. Should unforeseen inconveniences occur, University Housing regrets that it can make no compensatory adjustment. University Housing Staff will notify students of any adjustments needed throughout the year, which residents must observe and follow as needed.

Any entrance to construction areas in University Housing is considering trespassing and residents will be subject to disciplinary action and/or a fine. Use or tampering with construction equipment is prohibited.

DAMAGES

Each resident receives a blank Apartment/Room Condition Inventory (ACI/RCI) upon move-in. This document serves as a baseline for the condition of the room. Each resident must inspect the room for

any damages and document the damage on the form. Each resident is responsible for any damages found upon check out not documented on his/her at move in. Each student must check out of his/her room no later than 24 hours after their last final or on the last day of finals, whichever occurs first, unless the resident has prior approval for extended stay.

An improper check out fee will be administered if check out occurs after the closing of the residence halls. Residents must remove all personal property and trash or they will be assessed a property removal fee and/or a cleaning charge.

Students may be billed for damage to University property that goes beyond normal "wear and tear." University Housing will determine what constitutes normal "wear and tear." It is imperative that residents check their ACI/RCI and make any adjustments before signing off on the document. Residents will be held responsible for any damages to their rooms, over and above those that they noted on the form during check-in.

Students should never attempt to fix any problem in the room. They should place a work order in the online Work Order system found on the University Housing website.

Campus Facilities staff will address work orders and maintenance needs, which may require entry to all impact student rooms. Campus Facilities has the right to enter your room at any time to assess and complete any maintenance needs, even if not initially reported by the residents.

Students may be liable for a charge if they necessitate any unusual housekeeping or maintenance service. Students may be liable for negligence penalties if they do not report problems which result in larger problems.

If a student room (including both sides of the door) or its furnishings are damaged, the roommate(s) responsible will be billed. If responsibility is not taken, the cost will be billed equally to all of the occupants of the room.

Cleaning and Pest Control

Residents should bring a vacuum, broom, and other cleaning supplies. Residents are responsible for the cleaning of all messes within their room. It is crucial that residents keep the rooms clean. If there

is a bug or pest problem, residents are required to place a work order. Residents may be charged for the services if their living conditions prompted the infestation. Grease is not to be poured down drains.

University Housing has no evidence of bed bugs, therefore, students who acquire bed bugs are fully responsible and will be responsible for all costs associated with eliminating the pest.

DELIVERIES

Delivery persons are not allowed in the building. Therefore, pizza and other food service deliveries must be picked up in the lobby area of the residence hall. All package deliveries must go through Campus Safety or the South Hall Information Desk. Mail delivery services are not permitted to deliver parcels directly to student rooms.

DECORATIONS

Residents are encouraged to make their room personal, but the Office of University Housing asks that residents do not permanently change or damage any rooms within the residence halls. Any permanent change or damage will result in a charge to the resident's student account.

- Only artificial trees shall be permitted in lounges and student rooms. Decorations should be made of a flame retardant material and should not obstruct an exit or corridor.
- Only LED light sets may be used for decoration. The power line must not pass through the doorway or window frame to an outlet.
- Emergency hallway exit lights shall not be painted or covered.
- Do not use tape that leaves residue on the door, walls, or furniture. Small pinholes are acceptable, but not in excess.
- Mirrors, shelves, and hooks must be removed at the end of the year. They are not "room improvements."

The University does not allow the posting of items that are deemed to be racist, sexist, indecent, scandalous, illegal, inciting, or in any way oppressive in nature.

University Housing does not permit the painting of individual rooms.

Under no circumstance may an individual make structural alterations to the room, this includes constructing interior walls.

DRUGS

As outlined by the Drug Enforcement Agency, as well as Section C of the Student Code of Conduct, possession, use, manufacturing, or distribution of the following on University property (including the residence halls), except as expressly permitted by Federal law, is prohibited:

- Illegal drugs (i.e. marijuana, heroin, narcotics, or other controlled substances)
- Prescription drugs
- Drug paraphernalia used to facilitate drug use (i.e. pipes, bongs, hookahs, scales, grinders, vaporizers, electronic smoking devices)
- Odor of marijuana or other drugs

Campus Safety will be called to investigate and contact the appropriate government authority if local, state, or federal laws have been violated.

Items may be confiscated by University Housing staff or Campus Safety. It will be up to the discretion of University Housing to determine if the items are returned to the original owner.

Those present in a room where the drug policy has been violated (even if not personally violating University policy and/or state laws) will be subject to disciplinary action up to termination from housing or removal from the University, as well as referral to the appropriate government authority.

Marijuana, including Medical Marijuana

Although many states (Michigan included) have passed laws legalizing marijuana and medical marijuana, all forms of marijuana continue to be illegal under federal law. Federal law supersedes state law: as a result, institutions are not obligated to accommodate users of marijuana in residence halls, on campus, or otherwise. LTU does not allow the use or possession of marijuana in any form, including but not limited to edibles, oils, wax, vape cartridges, etc. on campus to comply with Federal law.

EARLY ARRIVAL/EXTENSION HOUSING

All residents in need of arriving early before their scheduled move in date or in need of staying beyond the move out date must submit an Extension Request form to the Office of University Housing. Extension requests are not guaranteed. If approved, students agree to follow all policies and agree to the \$30 per day fee.

FIRE EQUIPMENT

It is a violation of fire code to misuse, tamper with, disconnect, or deactivate a smoke detector or other fire safety equipment. Residents will be sanctioned and fined if this occurs. The residence halls have smoke detectors that are tested on a regular basis by Campus Facilities. If a smoke detector is malfunctioning or not working, please submit a work order.

The use of a fire extinguisher or fire protection equipment, other than its intended purposes, is prohibited. Hanging items from sprinkler systems is prohibited. Tampering with any fire equipment (i.e. fire alarms, exit signs, smoke detectors) is a felony offense and may result in both University disciplinary action and municipal criminal proceedings.

If a resident causes a fire alarm resulting in response from the City of Southfield, a fine of \$50 will be assessed. In addition, if the university is charged by the City of Southfield, the resident will incur the fine.

In order to ensure compliance with local fire safety regulations, University Housing staff or the City of Southfield Fire Department may check student rooms at any time. Failure to evacuate during a fire alarm, even if it is a drill, will result in a \$50 fine.

FIREWORKS

No guest or resident is allowed to possess or ignite fireworks, including firecrackers or explosive devices in the residence halls or on any campus grounds. Campus Safety will be notified and will investigate if an indication of fireworks is present. Residents or guests found in violation will be subject to disciplinary action up to termination from

housing or removal from the University, as well as referral to the appropriate government authority.

FURNITURE

All furniture deemed necessary is provided for each resident. Residents may not move furniture between rooms, nor remove common area furniture from its location. Residents must return all room furniture to its original location at the time they move out of their room. Failure to comply with the above may result in disciplinary action and/or a fine.

GAMBLING

Gambling or participating in games of chance for money or other items of value is prohibited.

GUESTS

- Having more than ten (10) persons (including room owners and guests) in any room/apartment at one time is prohibited.

The host must receive permission from his/her roommate(s) in order for a guest to stay overnight.

If University Housing staff notices a resident having excessive amounts or guests or guests for an excessive amount of time, we reserve the right to assess the situation and inquire with the resident of the building and/or the guest.

Overnight Stay

Each resident may not have a guest stay more than three (3) consecutive nights or exceed a total of 15 nights total for all guests per semester.

Guests must carry valid identification at all times, either a state ID or a current Lawrence Tech ID Card and Guest Card. No other forms of identification are valid. If a guest does not have a valid form of identification, he/she will be escorted out of the residence hall.
